Border/ Immigration	News 4 @ 6	10/2/09	6:08:48 to 6:10:30		The Mariposa port of entry in Nogales is being expanded. It is a busy port and the expansion will take 4 years. The port was built to handle 350 trucks a day, 1600 come through here during the peak season. The work will start in November. The 4 year project will triple the capacity for cars and double it for trucks, and provide better technology to sniff out the smugglers. The current number of lanes will stay the same so the work won't slow down the border traffic.
Border/ Immigration	News 4 @ 5	10/5/09	5:12:03 to 4:13:52		Businesses along the Arizona-Mexico border have been hit hard during these tough economic times. Customers aren't visiting or spending, and its caused several businesses to go under. One business owner has started a Bi-national Coalition of Business Owners to help bring customers back by focusing on four pillars, infrastructure, capital, policy and most importantly, image. They want people to come back and let them know it's safe to shop.
Border/ Immigration	News 4 @ 10	10/22/09	10:02:59 to 10:04:04		In this war on drugs, federal officials admit, one of their biggest problems is right here in Arizona. Traffickers, taking advantage of huge gaps along the border. Federal agents say thousands of tons of illegal drugs, worth about 10B, are being smuggled into the U.S. this year. In Western Mexico, with the ocean on one side, mountains on the other, and massive production to the south, a natural funnel heads straight for Arizona. The smugglers are using any method they can to get their drugs across the border.
Border/ Immigration	News 4 @ 6	10/23/09	6:05:33 to 6:07:05		A border watch group is going high-tech to figure out exactly how many people are illegally crossing the border. The "American Border Patrol" is raising money for a plan to put up hidden cameras and sensors along a stretch of the border. They'll count how many people pass by, and compare that to the number caught by the Border Patrol to see if current efforts are working. The Border Patrol said it can't speculate to something they don't now. They apprehend what they see, and can't count something don't see. The group plans to use the cameras and sensors for data, no apprehension and said it plans to have enough data by the spring.
Border/ Immigration	News 4 @ 6	12/3/09	6:06:30 to 6:08:01		Normally, crossing the border to and from Mexico usually isn't very hard. But, this time of year, you might hit a couple of roadblocks, and U.S. Customs and Border Protection wanted you to be ready. One tip, is to have your documents ready. But even more important, is telling inspectors what items you have so they don't have to search your vehicle and delay you more. And, even if you were prepared, expect some delays.

Border/ Immigration	News 4 @ 10	12/15/09	10:13:21 to 10:15:42		There is still a lot to be done to make the border secure. And, the University of Arizona, is spearheading those efforts. Researchers from the Border Center at the Eller School of Management demonstrated a new technology in the "detection lab." The mission is to determine if the person be questioned is lying or telling the truth. This test helps Border Agents detect border crossers who might post a threat. They also will be able to detect such things as their cardio-respiratory responses, their blink rate, their changes in thermo patterns all during truthful or deceptive responding. Also, researchers at Optical Senses are working on a sensor network. They will detect motion, vibration, pressure and temperature. For example, it can detect dangerous chemicals coming from a vehicle. There about a dozen projects underway at the University of Arizona under the "borders" project.
Border/ Immigration	News 4 @ 6	12/17/09	6:03:50 to 6:05:55		Many illegal immigrants take the risk every day crossing the border to a better life. But when winter hits, the weather can make the trip cold and harsh. News 4 spend the day with Tucson's Borstart, they guys who step in when crossers get into trouble. Border Patrol said Spring is the most active time of year for border crossings. Good weather and better job prospects cause more people come into he country illegally.
Border/ Immigration	Impact	12/27/09	6a-6:30a	Matthew Allen, Special Agent in Charge of Immigration and Customs Enforcement in the State of Arizona	We discussed the enforcement aspect of immigration policies in the state of Arizona. Similarly, we reviewed some of the new tactics smugglers are using along the Arizona/Mexico border. Viewers received an overview of this particular agency and how immigration laws are enforced. The subject matter included everything from drugs and human smuggling to child exploitation and fraud.

Community	News 4 @ 4	10/2/09	4:29:27 to 4:33:57	Joana Damos and Estela Jacome	Tucson is on of the oldest cities in the Southwest, and has a rich heritage that we all want to preserve. Back in 1991, a group called Los Descendientes Del Presidio de Tucson revived a Hispanic custom of naming La Dona Del Dia, a way to pay special tribute to a special woman in the community widely recognized for her dedication and service. There have been 17 Donas since 1991, to of them, Joana Damos and Estela Jacome, discuss what the honor means to them, and what they duties are of a Dona.
Community	News 4 @ 10	10/4/09	10:11:43 to 10:13:33		Sunday, October 4th, kicked off Day 1 of this year's campaign to eradicate "giant reed" from Sabino Canyon. The reed was brought here man years ago by "people" who decorated their yard with it but now it's sucking a lot of water and keeping the natural species from growing and re-vegetating. Organizers say if they can keep this pace, the giant reed will be gone from the canyon sooner than you know. 3 or 4 years, that's what they are hoping for. And they are getting a real good turn out with volunteers, and more are needed.

Community	News 4 @ 10	10/5/09	10:22:57 to 10:24:40		Once a year, the Salvation Army, a non-profit, hosts a holiday meal, and party, for hundreds of men, women and children, who otherwise wouldn't have the means to celebrate. With that, there is one volunteer at the Salvation Army who's been going above and beyond for decades, and making a difference in the process, and it's the annual holiday dinner for the Salvation Army. In 2008, volunteers served nearly 4,000 meals in Tucson to the homeless and others in need. The holiday season receives the most attention and demands a lot of time, that's why volunteers are even more important this year, and one man stands out from all rest. His family started volunteering in 1989 with his son and daughter, who were four and six years old at the time. The family now spends every Christmas morning at the dinner. For his family, the best thing in life are indeed for free.
Community	News 4 @ 6	10/5/09	5:05:20 to 5:06:10		Local business leaders met on 10/5, to discuss Propositions 401 and 402. Both props are related to the Tucson Unified School District's budget. Prop 401 asks if voters should approve a budget that exceeds current limits by 7%. Prop 402 asks if TUSD should adopt a budget that exceeds capital outlay by 9M. Local businesses met in support of the two propositions saying it would guarantee all day kindergarten and replace outdated computers. Those against Props 401 and 402 say this is too much of a burden on taxpayers. Others also argue that full-day kindergarten and other school programs and needs are already funded through regularly maintenance and operations funding through the State of Arizona.
Community	News 4@ 4	10/5/09	4:19:25 to 4:23:30	Bill Carnegie, CEO of the Community Food Bank, and Captain Josh Campbell, from the Tucson Fire Department	This year, more than ever, local residents are struggling to make ends meet. For those of us who work in this community, we see those struggles up close and personal. As the holidays approach, we know there will be a desperate need for food and toys, so KVOA and professional firefighters from all over Southern Arizona are teaming up to present "A Season of Hope" Holiday Food and Toy Drive. Bill Carnegie, CEO of the Community Food Bank, and Captain Josh Campbell, from the Tucson Fire Department, spoke about the food and toy drive.
Community	News 4 @ 4	10/5/09	4:42:34 to 4:45:44	Craig Wisnom, Bogutz & Gordon, P.C.	When someone dies the estate must go through probate. This can be a complicated and lengthy process. However, Arizona provides less complicated options for smaller estates. Craig Wisnom, from Bogutz & Gordon, P.C., spoke about this process.
Community	News 4 @ 6	10/6/09	5:02:55 to 5:04:51		Construction is underway to make La Canada a four-lane road but some people living in the area are not happy. Pima County Officials approved the widening project back in 2001, calling for 13 separated wall, between Ina Road and Calle Concordia. But due to lack of funding, the project was shelved and later approved by voters in 2006 as part of the 20-year regional transportation plan. One person living off La Canada said the county promised her a noise wall, and now she's not getting it. The county said getting a noise wall is based on the noise levels and not the distance your house is from the road. And, the county claims with the new plan that includes using rubberized asphalt, they're only required to build three noise walls, not the original 13. Even so, the county has agreed to stick with the 13 walls.

Community	News 4 @ 6	10/14/09	6:08:54 to 6:11:13		The Tucson City Council has found what the new downtown web site will look like. The City Manager wanted this so the public will have more information on downtown development projects. Especially hotly-debated Rio Nuevo Projects. Rio Nuevo was voter-approved in 1999. By June 2008, the city had spent 77M on related construction. Then, in August of 2008, city leaders approved 450M in new bonds for Rio Nuevo. That's to help pay for the future arena and hotel. Some have questioned whether the overall project to make downtown Tucson a hot spot has been productive. The new website provides pictures, details, expenses to date, and it includes everything, not just Rio Nuevo projects.

Community	News 4 @ 10	10/19/09	10:00:00 to 10:01:57		Tucson firefighters just moved out of their building next to police headquarters downtown for a brand new firehouse near by. Now, the Tucson Police Officers Association, with backing from Tucson Tea Party organizers, are crying foul over who got the building. TPOA President said the Police Department had their eye on using the place for the last several years and the said the city knew about it. However, the police department never made a formal, written bid to use the property. The Museum of Contemporary Art got the building for just a dollar per year in rent. The city manager said the firehouse rental was put out for bid and the museum's the only one that came forward. It was a publicly-bid process for the use of the building, everyone had an opportunity. He also mentioned the city can't afford to pay millions to renovate the place.

Community	News 4 @ 10	10/29/09	10:10:30 to 10:13:00		New electronic eyes are popping up around Tucson. Some people are concerned about the new cameras and what they're watching along city streets. City Engineers and Technicians are watching the cameras. The city said the new cameras are being tested to see if they can help technicians tweak traffic signals to improve traffic flow along busy roads. Some worry that since these cameras can zoom and pan 360 degrees, that those living near them could have their privacy invaded by the camera operator. The city said they've taken care of that through software that automatically blocks out neighborhood views whenever the camera pans away from the road. Also, the video is not being recorded and it can't be accessed over the internet. Even though the cameras are a pilot program for the city, they've already been used on the I-10 construction project. And Operators said the camera's versatility makes it far better than those fixed cameras we're used to seeing at intersections.
Community	News 4 @ 6	10/29/09	6:08:43 to 6:10:55		Your car got a break from some big potholes around Tucson as city officials kicked off the Hartford Pothole Patrol on 10/29. Community	News 4 @6	11/13/09	6:00:01 to 6:02:04		As crews got to the scene of an early morning fire, the hydrant was gone. So, firefighters doused the flames using a water truck, and later, a fire hydrant around the corner. KVOA asked Metro Water about the missing hydrant. They are the company once responsible for taking care of it. They said they've known the hydrant's been gone since about 2003. When the county did road improvements, the hydrant came into conflict and was removed at that time. So, why didn't the fire department know about the removal? Both agencies say it was all a miscommunication. But both agree, if possible, they'd like to have that missing hydrant put back where it belongs.

Community	News 4 @ 4	12/4/09	6:00:53 to 6:03:53		The financial reality of Arizona's childcare system hit big on 12/4. A program that provides assistance to working parents has turned away it's 10,000th child. Those kids, now on a waiting list, instituted earlier this year by the State Department of Economic Security. Why? Budget cuts. Last fiscal year, which ended in July, the state cut 153M from DES. In November, an additional cut of 155M was approved by Governor Jan Brewer. Couple of those reductions with more cuts expected next year, and the agency is in dire straits. The childcare program, one of many services provided by DES, provides an average subsidy of 350 dollars a month for about 35,000 children. But what about the thousands of kids now waiting for help? And what are parents supposed to do? DES told News4 it expects here on out, at least until some sort of budget coverage is figured out, 200 eligible children will be added to that waiting list each week.

News4 and a local horse rescue organization, The Heart of Tucson, toured the area south of the airport on Country Club Road near Old Vail Connection Road and Summit Road. The area is actually known for being used as a dump site for trash, but recently, people started to realize it wasn't just trash that was being dumped. Injured dogs, dead dogs, even dead horses were being dumped. Catching people doing this will be hard, because of that, officials say education may have to be the weapon of choice. But until the message sinks in, county officials and groups like The Heart of Tucson, said they'll be out there looking for signs of life. Since this story aired, there have been three rescues, a dog, a horse and four puppies.

Community	News 4 @ 10	12/28/09	10:00:10 to 10:02:27		New financial ideas floated by Tucson's City Manager to help work to close out a multi-million dollar budget deficit, and save jobs. The major sticking points have been proposed cuts to police and fire. With a debt of 32M, the cash needs to come from somewhere. To spare police and fire, Tucson's City Manager proposed the landlord tax. The 2% landlord tax would generate 10M a year. It would be temporary until voters approve a more permanent funding, and prevent layoffs to police and fire. There will also be other proposed cuts to help eliminate out the debt. City Council members voted on fee increases, cuts and landlord tax implementation at their 1/5/10 meeting.

On average, teachers ask 400 questions, however, students may not even get the chance to ask one. If asking good questions is the basis for becoming a successful learner and worker in the 21st century, then why aren't more students asking questions in the classroom? Valerie Cavazos shared the answer.
Education	News 4 @ 5	10/20/09	5:07:52 to 5:09:52		Many schools want your vote, and eventually, your money, in the 11/3 election. There are 6 Pima County public schools pushing for a budget override, and four, hoping for bond approvals. The director of Americans for Prosperity is telling people to say no on school budget overrides because there is enough money. However, a Catalina Foothills parent, and the co-founder of an education group, said that there is a lot of information floating around that's just plain not true. She said the facts are, schools are under funded, especially after the state cuts and the looming mid-year cuts likely to hit schools again. Some of the overrides and bonds are just renewals. If they pass, your property taxes would stay the same. But some are new, like the TUSD bond overrides. If Prop 401 and 402 pass, your property taxes would go up about \$100 dollars a year.
Education	News 4 @ 4	11/5/09	4:39:12 to 4:44:41	Valerie Cavazos	It is important to teach our students that we are all citizens of the world. Valerie Cavazos showed us how international teachers, teaching here in the United States, view American students and schools.

Education	News 4 @ 4	11/19/09	4:41:11 to 4:46:27	Valerie Cavazos	In October, more than 7,000 public and private schools nationwide were tested to find out how well American children are doing in math. Scores were slightly higher in the latest assessment, as compared to 2007, but not where they should be. Valerie Cavazos, told us that more and more math teachers are changing their approach to math, and parents need to do the same.
Education	News 4 @ 10	11/24/09	10:12:10 to 10:14:10		Text messaging is a dominant form of communication that's taken on a life and language of its own. You know those little abbreviations? LOL for laugh out loud, or IDK, for I don't know. Apparently, they're making their way from cell phones into students' notebooks, and that has some teachers concerned.
Education	News 4 @ 10	12/1/09	10:12:09 to 10:14:19		Grant money is letting some kids in the Tucson Unified School District meditate their worries away. Twice a day, on campus, kids are taking a self-imposed "time-out." Teachers say it's working wonders but others say it's nonsense. Students have to sign up for Transcendental Meditation, and right now, it's being offered in three TUSD schools. The Tucson Museum of Art School, Project M.O.R.E. High School and Tucson High.

There are 8 locations in Pima County to properly dump your tree, and they are taking them up to January 10th. A good way to get rid of your tree and prevent any fires, tragedies from happening in your home.
Environment	News 4 @ 10	12/30/09	10:21:55 to 10:23:35		There's a local market right here in Tucson that keeps mother nature in mind. It's the Tucson Green Art & Farmer's Market where people sell new items made from garbage. Among the hot items selling were homemade jewelry and barbed wire Christmas trees. You'll also find some of Tucson's freshest produce, homegrown organic tomatoes and apples. This is our Earth and if we don't start taking care of it, she's not going to give back to us the way we want.
Health	News 4 @ 10	10/2/09	10:04:49 to 10:07:12		A lot of concern in the schools where the flu can spread like wildfire. University of Arizona Health Services told us since classes started, which was less than two months ago, 19 students had positive flu tests, 13 of those cases, the swine flu. With that, the school is asking instructors to relax their attendance policies for students who are sick, whether it be with the seasonal or swine flu. But there are worries the policy isn't going far enough.
Health	Impact	10/4/09	6a-6:30a	Dr. Sean Elliott - UMC Medical Center	We discussed all things H1N1 virus related such as when vaccinations will be available, who's most at risk and how to avoid getting the H1N1 virus.

Health	News 4 @ 5	10/6/09	4:58:50 to 5:00:25		The Swine Flu has continued to spread, and could be to blame for the illnesses at the U of A. Over the past few weeks, more than two dozen athletes have been stricken with swine-flu like symptoms. Some players have even been benched. The school said their best defense now is prevention, and the H1N1 vaccines will also be available on campus.
Health	News 4 @ 4	10/7/09	4:24:04 to 4:27:14	Judy Schuler, M.S.	Pregnant women are among the first in line for the H1N1 flu vaccine because they are at higher risk of complications from the H1N1 flu. Judy Schuler, M.S., explained why they are at higher risk.
Health	News 4 @ 5	10/9/09	5:00:50 to 5:03:25		This flu season has taken a toll on people and schools across the country. Two schools in Southern Arizona have even closed due to the high number of absences and have shut down due to flu related illnesses. Both schools are to reopen 10/12. These measures are prompting Tucson's largest school district to come up with a plan if they continue to see more students call in.

Health	News 4 @ 4	10/9/09	4:49:33 to 4:53:18	Dr. Gwen Maxwell, Plastic Surgeon	The number of people choosing to have plastic surgery has soared in recent years. Technological advances have increased the options you can consider, however, do your research before you consider any operation. Dr. Gwen Maxwell, plastic surgeon, spoke about researching information about the web.
Health	News 4 @ 10	10/13/09	10:11:53 to 10:13:42		At the height of the swine flu outbreak last season, the Tohono Indian Reservation was hit hard. One person died, and 22 others were hospitalized. And with this season spiking up again, they are taking steps to prevent another influx of patients. To prepare, Indian Health Services has designated an entire room to be stock piled with supplies, masks, sanitizer and gloves. And to prevent outbreaks at schools, 1500 students on the reservation will be given seasonal flu vaccine by months end.
Health	News 4 @ 10	10/14/09	10:00:50 to 10:02:43		Get sick, don't go home, get fired. That's the new rule for county employees, and it had people talking. To stop the spread of swine flu, employees are being told to stay away until their fever breaks without medication. Healthcare workers have to stay home up to 7 days. If they resist and come to work anyway, they could be out of a job. Mixed emotions over the new sick-leave policy. An employee from County Health said if anything, it protects employees two ways, their health and job security. Other Tucsonans disagree, especially those who don't have sick leave.
Health	News 4 @ 10	10/15/09	10:00:48 to 10:04:26		Massive amounts of people showed up on 10/15 to get the H1N1 nasal vaccine today. At one point, the line stretched the facility two times around. The line was so long the Pima County Health Department called in reinforcements from other offices to help people get vaccinated against the H1N1 virus. All 300 doses of the injectable H1N1 vaccines delivered at the last moment were given to the highest "at risk" group, pregnant women and infants younger than 6 months. Everyone else got the nasal H1N1 mist vaccine. Pima County Health Department workers say long lines of people showing up to the H1N1 flu clinics is a good sign. They are taking this matter of public health seriously.

Health	News 4 @ 4	10/16/09	4:26:34 to 4:30:09	Dr. Lori Mackstaller, Sarver Heart institute	The H1N1 virus is causing an unprecedented amount of illness for so early in the fall, not to mention confusion about the vaccine, when to get it, what form and how many doses? Dr. Lori Mackstaller, from the Sarver Heart Institute, spoke about the H1N1 virus and whether people are taking it seriously enough.
Health	One on One	10/18/09	6:30a-7a	Diane White, needs kidney donor	Diane is a Tucson mom, in need of a kidney donor. She's been on the organ transplant waiting list for 4 years and decided to take a creative, proactive search for a donor by posting an ad on Craigslist. Some 48 people contacted Diane after her original story aired on News 4 in early September. Since then, her potential donor fell through, so it's back to the drawing board. We discussed who can donate live organs, common misconceptions about organ donation, and the testing process.
Health	News 4 @ 6	10/20/09	5:59:41 to 6:02:49		All Pima County Health Department swine flu vaccine clinics were moved to Tucson Electric Park. The goal...to make it more convenient for more people to get the flu shots and nasal mist. The wait now will not be as long as it was at county clinics. The delay in getting the H1N1 vaccine to the public had people turning to the internet to protect their families. Bad idea because the products could be bogus. Health officials hoped that people chose to bear with the long lines rather than fall victim to a scam.
Health	News 4 @ 10	10/21/09	10:03:43 to 10:05:19		Two women, confirmed to have the H1N1, or swine flu virus have died. And, the Pima County Health Department, told us both had underlying health conditions. This brings the death total, in Pima County, to five, since April. The women, ages 34 and 53, were not eligible for the vaccine. They couldn't get it if they'd wanted it, which has raised questions. The Pima County Health Department says it can get only small amounts of the H1N1 vaccine, so it's reserving them for certain people. Generally, the age cutoff is 24. Federal Guidelines, the county said, it must follow. The CDC set the guidelines for the vaccine's use. The station contacted the CDC to determine how they set their H1N1 vaccine requirements. We're waiting for a call back.
Health	News 4 @ 4	10/23/09	4:26:26 to 4:30:13	Anita Kellman, Founder of Beat Cancer Boot Camp	Studies show that exercise can offer some protection against breast cancer. We know that exercise helps us reduce chances of heart disease, high blood pressure and diabetes. It also helps you lose weight, sleep better and feel better. So why not do it? Anita Kellman, Founder of Beat Cancer Boot Camp, showed us we really have no excuse not to exercise.

Thousands of women and men have them every year. Many more might consider one if they knew more about it. Sheila Marris, is a mother, stepmother and grandmother, had a facelift. She did her homework, knew what the risks and benefits were, and spoke with four plastic surgeons before picking one. Sheila, and her plastic surgeon, Dr. Gwen Maxwell, spoke about her facelift.
Health	News 4 @ 4	11/11/09	10:13:42 to 10:16:01		There are more germs on your TV remote than perhaps anywhere else in your house, and that includes influenza viruses. U of A scientists studied germs on remotes in lots of places, even hospitals. Some hospitals around the country are going to extreme measures. They're issuing disposable TV remote controls to their patients. When the patient leaves the hospital, the remote goes with them. Many of the hospitals in Tucson can't use disposables remotes because their remotes are more sophisticated devices, used to turn on the TV, call the nurse, and do other things. Officials at the hospitals, said remotes are routinely given thorough cleaning and disinfecting to protect patients and others from germs, and viruses, like H1N1. It is recommended that you wipe-down your home TV remote once in a while, use a "wipee" or a disinfectant sprayed on a cloth.

Learning "how" and "why" you eat, and less about "what" you eat, is not a new concept, in fact it's centuries old. Rhonda Zwelling, spoke more about mindful eating.
Health	News 4 @ 10	11/17/09	10:11:44 to 10:15:05		KVOA 4 showed us how startling and fast viruses and germs can spread. Usually it's the kids who get sick first, then we get the bug from them. KVOA 4 conducted an experiment at a Tucson daycare showing how viruses and germs can spread between the kids. The daycare director advised that the school is cleaning and disinfecting regularly, and the kids wash their hands 6-8 times a day.
Health	News 4 @ 4	11/17/09	4:28:44 to 4:31:59	Dr. Sam Moussa, from the Adobe Gastroenterology	Almost everyone experiences a little acid reflux, particularly after meals. Experts estimate that up to 36% of otherwise healthy Americans experience heartburn at least once a month. Acid reflux irritates the walls of the esophagus and that can lead to Barrett's esophagus. Dr. Sam Moussa, from the Adobe Gastroenterology spoke about a successful treatment with Barrett's esophagus.
Health	News 4 @ 4	11/18/09	4:25:50 to 4:29:10	Dr. Lori Mackstaller, Sarver Heart Center	Health and Human Services Secretary, Kathleen Sebelius, told women to keep doing what they have been doing for years, mammograms are a life saving tool. She issued that statement on 11/18, to ease confusion over a government panel's recommendation that most women don't need mammograms in their 40's and should get one every two years starting age 50. Sebelius said federal policy on who should get breast cancer screening has not changed. Dr. Lori Mackstaller, from the Sarver Heart Center spoke more about this subject.

Safety	News 4 @ 4	10/8/09	4:49:38 to 4:52:48	Keith Duncan, from Allstate Insurance	Keeping your family safe and your home secure is the goal of most families. There is so much new technology on the market, it's important to do your homework if you're looking for new locks. Keith Duncan, from Allstate Insurance, spoke about a new series of locks for Schlage Link.
Safety	News 4 @ 5	10/13/09	5:13:30 to 5:15:17		For bicyclists, getting through busy intersections can be difficult, especially if there are no traffic signals or bike lanes. But now, one east side intersection is getting a makeover, making it safer for those on two wheels. And to get other ideas, the City of Tucson is looking at how other cities have handled the problem.
Safety	News 4 @ 5	10/13/09	4:52:15 to 4:55:15	Quincey Hobbs	If you're like most people, you use your laptop for everything. Their portability is their strength but also their weakness. It's easy for someone to walk off with your laptop, but a few preventive measures can make sure you are the only one walking around with your laptop. Quincey Hoggs, spoke about some preventive measures we can take to safeguard our laptops.
Safety	News 4 @ 10	10/19/09	10:12:26 to 10:14:00		Everyday 18 wheeler trucks cruising across the country pass through town. The big rigs already have tough design standards. And now, a new one, a change in the law will soon require new trucks to have better breaks. Truckers often complain that drivers in cars pull in front of them, not giving them enough room to stop. The new standard requires that a tractor-trailer traveling at 60 mph come to a complete stop in 250 feet. The old standard required a complete stop within 355 feet. The federal government estimates this new law will save 230 lives each year.
Safety	News 4 @ 4	10/22/09	4:49:08 to 4:52:38	Keith Duncan, from Allstate Insurance	Halloween is near and your little ghosts and goblins will be out wandering the streets. For a parent, there is nothing scarier than that. So, what can you do to make sure that your children stay safe during the holiday. Keith Duncan, from Allstate Insurance, shared some ideas on how to keep your kids safe during Halloween.
Safety	News 4 @ 4	10/27/09	4:30:02 to 4:33:17	Anne Marie Braswell, Rural Metro Fire Department	Halloween might very well be most kids favorite holiday. They get to dress up, hit the streets and collect as much candy as they can. For parents, it's a safety nightmare. Anne Marie Braswell, from Rural Metro Fire Department spoke about things you can do to make Halloween a fun, safe event.
Safety	News 4 @ 6	10/29/09	6:00:14 to 6:02:39		Halloween is one of the most exciting times of the year for children. But it's also probably the most hectic for parents. Statistics say 94% of children between the ages of 4 and 12 participate in Halloween activities each year. That makes safety the number one concern. One Tucson parent wasn't aware there are 88 sex offenders living in his area. The Tucson father of three found it very disturbing because of his three daughters. To keep the streets safety for children on Halloween, police gave an early wake up call to sex offenders. Federal, State and Local law enforcement officers took to the streets targeting child predators and sex offenders.
Safety	News 4 @ 10	10/30/09	10:00:10 to 10:01:51		It's Halloween time. And this Halloween, a flame could be your worst enemy if you're not wearing the right costume. Fire Captain Adam Goldberg sent out a special message warning the public about flammable costumes. Stay away from costumes that are made out of plastic or rubber, even wigs have a potential to catch fire. Wear cotton is recommended because it fits well and is going to be the safest when it comes to a fire safety standpoint. And most importantly, stick to the basics... stop, drop and roll. So, taking the time to think ahead can keep you and your loved ones fire hazard free.

Safety	One on One	11/15/09	6:30a-7a	Capt. Andy Trujillo, Tucson Fire Dept.	We discuss the new continued chest method CPR versus the traditional mouth to mouth method. The continued chest method CPR has a higher save rate than mouth to mouth. TFD highly recommends the chest compression method. Viewers saw a demonstration of the chest compression method and how easy it is to save a life.
Safety	News 4 @ 6	11/16/09	6:09:55 to 6:11:42		El Tour de Tucson organizers are making big changes this year to help keep riders safe while on the streets. This is due to some cyclists being hit by a driver who drove right in front of them last year. Five cyclists were taken to local hospitals from this accident. So, this year, the organizers have added more police to the intersection of that accident. They also changed the route in a few areas to avoid road construction, and used the frontage road this year, instead of Silverbell Road which narrows in some areas. These are moves to keep safety number one.
Safety	News 4 @ 4	11/19/09	4:49:22 to 4:53:02	Keith Duncan, from Allstate Insurance	With the holidays fast approaching, identity thieves will be out in full force trying to take advantage of unsuspecting shoppers. Safety	News 4 @ 4	11/20/09	4:44:03 to 4:48:03	Anne Marie Braswell, Rural Metro Fire Department	More cooking fires are apt to happen on Thanksgiving than on any other day of the year. In fact, the incidence of home cooking fires is roughly three times the daily average on Thanksgiving. Hundreds of people are killed each year, thousands more injured, and millions of dollars in property damage happen because of cooking fires. Anne Marie Braswell, from Rural Metro Fire Department, spoke about safety tips for safe cooking from the National Fire Prevention Association.
Safety	News 4 @ 5	12/4/09	5:00:18 to 5:02:32		Drivers are suppose to stop when school busses stop, turn on their lights and display a stop sign. But some are breaking the rules, putting kids in dangers. Pima County Sheriff's Deputies are taking action with a program called Project Bus, which is being funded by an allowance from the Governor's Office of Highway Safety. The grant allows the department to deploy deputies all the way until May so you're going to see deputy sheriffs at school zones throughout the county almost daily.
Safety	News 4 @ 6	12/7/09	6:01:14 to 6:02:55		Earlier this year, gunmen shot and killed an innocent girl in a brutal car jacking. The suspects were men she didn't even know. Police still haven't found the killers, and that's devastated the family. Now, those she went to school with want to make sure a senseless crime like this doesn't happen again. The girl's mother, grandmother and a good friend of hers were speakers at a town hall, taking a stance against violence.
Safety	News 4 @ 10	12/8/09	10:13:04 to 10:14:58		Residents in the Midvale Park Neighborhood said traffic on their street has become their worst nightmare. And, nothing is being done about it. The worst area is the intersection between Headly and Oak Tree, where speeding drivers cause lots of accidents. Residents said during the day traffic isn't so bad but when it comes to nightfall, its a whole different story. Dangerous curves, no street lights for people to see. The Midvale Park Homeowners Association installed some lights on the north end of Oaktree but then ran out of money. They are hoping some grant money will complete the project to make the area for resident's safety.

This new regulation kept consumers healthy and happy while shopping this holiday season.
Safety	News 4 @ 10	12/26/09	10:00:52 to 10:02:16		The beef up in security didn't just happen at the big airports. Sky Harbor in Phoenix and Tucson International Airport both saw changes since the latest attempted terrorist attack. Security measures took effect at airports around the country, leaving some travelers flying into TIA exhausted with all the new safety procedures. While airports expected to see longer lines, some flyers didn't really notice the change in security.
Safety	News 4 @ 5	12/29/09	5:12:07 to 5:13:55		You need to take safety precautions when it comes to heating your home. The Tucson Fire Department said during the winter months, many types of fires are started related to heating appliances and fire places. This includes portable space heaters and ovens. TFD advised to keep the surroundings clear around space heaters, and fire places. And to make sure the embers in the fire place are extinguished completely before leaving the home or going to sleep. They also said you should never use your oven as a heater because of the carbon monoxide it produces.
