Austin, TX 78701

Good afternoon,

In response to the listing on medialine.com I am enclosing my resume for consideration for the Multi-Platform Journalist position.

My love of visual storytelling inspired me to pursue a career in television news and the opportunity to pursue this goal at KXAN is very exciting.

I am well versed in shooting video and alternative story telling. I am creative, I learn very quickly and I take direction well.

KXAN has an impeccable reputation of using innovative technology to deliver information with speed and accuracy while maintaining integrity and impartiality. I am confident that my knowledge of producing compelling stories coupled with my proficiency editing video in Avid News Cutter would help maintain that standard of excellence.

As further evidence of my skills as a journalist, in August I received a Master of Science in Journalism degree from the Medill School of Journalism at Northwestern University in Evanston Illinois.

The job description requires someone who is willing to become part of a fast moving team. I have experience producing broadcast packages on tight daily deadlines. I became very comfortable performing under extreme deadline pressure during my time at 'Good Morning America' in Washington DC, where I assisted on live shots from the State Department and the White House.

I would welcome the opportunity to interview for this position where I can elaborate on my knowledge, skills and abilities that would make me an asset to KXAN.

To reach me you may contact me at the phone number and email address listed below.

Thank you for your consideration, I look forward to hearing from you.
