- 01/28/02 **"Murder They Wrote: Double Jeopardy"** - focuses on the investigation of the September 24, 1988 sexual torture-murder in Louisville, Kentucky, of Brenda Sue Schaefer, which was the subject of Double Jeopardy, a non-fiction book by journalist Bob Hill. However, six months later new incriminating evidence -- Brenda's jewelry and photos from the night of her murder -- were discovered in Ignatow's former home. Because of the double jeopardy provision of the U.S. Constitution which specifies that citizens cannot be tried more than once for the same crime, Ignatow will never serve time for the murder of Brenda Sue Schaefer but he has been imprisoned for perjury. - 03/27/02 **"Reasonable Doubt"**- in September 1999, Brian Eftenoff of Phoenix, Az. Was convicted of murdering his wife, Judi. It was alleged that Eftenoff forced more than a gram of cocaine down his wife's throat causing her to die of a cocaine-induced stroke. After a re-examination of the case, 48 HOURS presented the trial evidence to a panel of four forensic experts -- Dr. Lee Hearn, chief toxicologist for Miami-Dade County, Fla.; Dr. Edward Briglia, chief toxicologist for Suffolk County, N.Y.; Dr. Charles Wetli, Suffolk County chief medical examiner; and Dr. Don Reay, former chief medical examiner in Seattle -- not one of whom think that Judi Eftenoff was a murder victim, but concur in the belief that her death was due to a self-administered cocaine overdose. (C: Erin Moriarty - Sr. P: Peter Schweitzer - P: Josh Yager, Loen Kelley)
- 03/29/02 **"Animal Magnetism"**- focuses on the extreme lengths people will go to express their love for their pets, including reports on: Lynn Goldstein and Doug White, a divorced Louisville, Ky. couple involved in a bitter battle over the custody of two cats and a dog; Animal Haven, in New York and Best Friends in Utah, animal shelters with no-kill policies where animals are not put to sleep

unless they are suffering; lost pet scams that bilk thousands of dollars from worried pet owners; debate over the idea of cloning domestic pets; the freezing and storing of DNA material from pets for possible future use. (C: Richard Schlesinger, Troy Roberts, Erin Moriarty, Jim Axelrod - Sr. P: Diane Slaine-Siegel - P: Clare Friedland, Marcie Spencer, Paul LaRosa)
