Last week Martin was killed and his wife Gracia wounded in a rescue attempt. (C: Dan Rather - P: Sun Min)
- 06/10/02 (48 HOURS MYSTERIES) "The Bookie's Wife"- Bob Angleton, a successful Houston, Texas bookie and confidential police informant, was arrested for the April 1997 murder of his wife Doris. Prosecutors claimed that Bob, having learned of his wife's plans to divorce him and inform the IRS of his illegal dealings, had plotted her murder with the help of his brother Roger. Before Roger could testify he committed suicide leaving a note claiming that he was the killer. Bob Angleton was tried in state court and acquitted. The broadcast also examines the issue of freedom of the press guaranteed by the First Amendment of the Constitution, focusing on Vanessa Leggett, a 33-year-old aspiring true-crime writer working on a book about the Angleton murder. Leggett was jailed for 168 days on charges of contempt of court for refusing to turn over to prosecutors tapes of interviews with confidential sources. Although one federal grand jury failed to indict Bob Angleton he could face another investigation. (Sr. P: Katie Boyle - P: Loen Kelley, Abra Potkin, Jenna Jackson Cook) (OAD: 01/11/02)
- 06/14/02 "It's All In Your Head" - focuses on scientific developments involving the human brain, including reports on: Maribeth Cook, a 41-year-old woman left partially paralyzed following a stroke, who became the first person to have brain cells from a pig fetus put directly into her brain; Bellefronds, a brain therapy developed in France which purportedly can help children with learning disabilities through the use of visual and audio exercises, thought to increase the flow of information between the two sides of the brain; Jonathan Lerman, a 14-year-old autistic artist whose paintings sell upwards of \$2,000 each; Audrey Cyr, an 86-year-old Alzheimer's patient who discovered previously hidden artistic talents; and Dr. Larry Farwell, an Iowa scientist who developed brain fingerprinting, a technology which he claims analyzes the brain waves of a criminal suspect to reveal whether or not that individual has committed a crime. (C: Troy Roberts, Peter Van Sant - Sr. P: Katie Boyle - P: Miguel Sancho, Taigi Smith, Marcelena Spencer, Calre Friedland, Chris Dinan). Also includes a report on Ray Kurzweil, a computer scientist doing futuristic research on nanobots, intelligent machines the size of blood cells, which he predicts can be introduced into the brain to control different function and thoughts. (C: Richard Schlesinger - P: Chris Dinan) (OAD: 12/30/99 as a segment of "On The Brink")

48 HOURS (continued)

- 06/17/02 (48 HOURS MYSTERIES) "A Family Torn Apart"- the brutally murdered body of Bob Dorotik, a 55-year-old engineer and father of three, was found by a mountain road near his home in the foothills of San Diego, Ca. Despite her denial of any involvement, Jane, Dorotik's wife of 30 years, was arrested for the crime. In response to the prosecution's damaging physical evidence against Jane, her attorneys tried a risky and divisive strategy -- trying to shift suspicion to Claire, the couple's daughter whose relations with her father had been strained. Jane Dorotik was tried for murder, found guilty and sentenced to 25 years to life. She has filed an appeal for a new trial. (C: Erin Moriarty - Sr. P: Katie Boyle - P: Lisa Freed) (OAD: 12/03/01)
- 06/21/02 "Jackpot"- for six years Roby, Texas endured a devastating drought that crippled the farming business while cattle prices plummeted, and the population dwindled. On Nov. 27, 1996 the town got the miracle it needed when 43 people won the \$46 million Texas lottery. The report focuses on what happened to the winners including: Jack McClure, who was just about to declare bankruptcy; Peggy Dickson, who started the Lotto pool and later died of brain cancer; Bob Terry and his daughter-in-law Renee who didn't participate in the lottery; Jim Carson, the liquor store owner who sold the winning ticket; and Lance Green, who ran unsuccessfully for town Mayor and whose former wife demanded half of his winnings and then accused him of sexually assaulting her 3-year-old daughter. Shortly after the 1998 broadcast the charges were dismissed. Green's ex-wife later sued CBS, saying the broadcast implied that she had trumped up the sexual abuse charges. (C: Bill Lagattuta - Sr. P: Gavin Boyle, Chuck Stevenson - P: Chuck Stevenson) (OAD: 01/08/98 with an update)
- 06/24/02 (48 HOURS MYSTERIES) "By Two And Two" - investigates the real-life murder mystery which inspired true crime author Jim Schutze of Dallas, Texas to write By Two And Two. The broadcast focuses on Betty Wilson and Peggy Lowe, twin sisters who were tried separately for first-degree murder for allegedly hiring a hitman -- James Dennison White -- to kill Betty's husband Jack Wilson, a wealthy Huntsville, Alabama doctor. Although both trials relied heavily on the testimony of one key witness -- White -- a known con man, drug addict and felon, Betty Wilson was convicted and sentenced to life in prison while her sister, Peggy Lowe was acquitted. White, who changed his account of the crime several times during the course of the trials, has since recanted, saying that both sisters are innocent. He refuses to testify in court that he lied -- a step that could win Betty Wilson's freedom. Betty's appeals for a new trial have thus far been denied. (C: Richard Schlesinger - Sr. P: Reid Collins Jr. - P: Mitch Weitzner) (OAD: 01/25/02 as "Murder They Wrote: By Two And Two")
- 06/28/02 "Death In The Desert"- focuses on programs designed to help young people with disciplinary problems, including reports on: (1) the investigation of the death -- from dehydration due to heat exposure and complications of near drowning -- of 14-year-old Anthony Haynes who was enrolled in America's Buffalo Soldiers Reenactors, a military-style boot camp in Buckeye, Arizona. Charles Franklin Long II, a self-proclaimed Colonel who founded and runs the boot camp was arrested and charged with child abuse, aggravated assault and second-degree murder. He is awaiting trial; (2) an innovative and intense alternative treatment program for troubled teenagers called MST (Multi-Systemic Therapy) which assigns a counselor to the household not only to work with the teenager, but also every influence in his or her life -- neighbors, teachers, friends and especially parents. (C: Richard Schlesinger, Susan Spencer - Sr. P: Katie Boyle - P: Randy Martin, Patti Aronofsky)

Mike Hayden, director of the NSA (National Security Agency) who claimed that the agency is not keeping pace with developments in global telecommunications and that the gap has put the U.S. in danger from terrorists, including Osama bin Laden. The followup focuses on impact of this gap on the agency's failure to sound an alarm before the September 11 terrorist attacks on the Pentagon and World Trade Center. (C: David Martin - P: Mary Walsh)
- "The Philadelphia Plan"**- a report on the Philadelphia Police Department's new approach in the drug war which offers first time offenders living in the city the choice between jail and drug rehabilitation.
