January 27, 2009	6:30 pm – 7:00 pm	State of the State Address
February 24, 2009	7:00 pm – 8:30 pm	State of the Union Address

FIRST QUARTER WEATHER LABS

Created by KSL 5 Television, Weather Lab is a weather/science program. It is suited mainly to grade levels 4-6 and airs in conjunction with the 4th Grade weather curriculum in Utah schools.

During each session of Weather Lab, school children, their teachers, administrators and parents go to Discovery Gateway, a Salt Lake City-based children's museum, to meet with KSL Meteorologist Grant Weyman to learn about science, weather and broadcasting. Each group and experiment is taped for future on-air use.

The experiments air the week of the taping on KSL 5 News at Noon and attract a diverse group of students representing Wasatch Front schools in a wide geographic area. Schools participating come from the public, private, charter, web-based and home school sectors.

Weather Lab students are given the opportunity to share with viewers what they've learned about weather science, clouds, water cycles, precipitation and barometric pressure, just to name a few. Grant Weyman also plans and shares experiments and demonstrations with the school groups, while utilizing the museum's many educational backdrops.

Weather Lab has also created an Internet web site on www.ksl.com. Within the site one can find information in such areas as "ask the Meteorologist," weather folklore, weather games, weather experiments, weather safety and quick weather facts. Also, students and parents can click on and see "streaming" video of previously aired segments.

Weather Lab meets the education and environment ascertainment.

Date	School
January 27, 2009	North Star Elementary 5 th Grade
February 10, 2009	Rose Crest Elementary 4 th Grade
February 24, 2009	Hayden Peak Elementary 6 th Grade

*Some organizations aired more than one time monthly, but list reflects all organizations represented during the first quarter.

FIRST QUARTER ASCERTAINMENTS

Greg James met with Mayor Peter Corroon and Councilman Randy Horiuchi individually on March 4, 2009.

Issues Discussed:

- Would like to see specialist for a day back for a ratings period.
- Their budget has to be reduced by \$50,000,000 and they're looking for places to cut.
- The legislature has passed cuts that cause cities to raise taxes...underfunding certain programs causes matching money to be lost and the cities have to make up the difference.
- Gang problem.
- Jail is over-crowded.
- The jail is now the largest drug and mental rehab center in the state.
- Lack of intercity cooperation.
- Installing a new tracking system for the jail so everyone, judges, DA's, etc. know who is in jail, what for and what space is available.
- Mental health and drug problems are wide spread.
- Quality of life for kids...parks, schools, open space, exercise, libraries.
- Impact fees, or lack thereof, is significantly hurting small cities like Herriman.
- Unified police dispatch. They think unified fire is a great model. They are getting a lot of opposition from city chiefs.
- Arts ZAP tax will significantly reduce funds available because spending is down.
