## **FIRST QUARTER COMMUNITY/PUBLIC SERVICE PROGRAMMING**

January 26, 2010	6:30 PM – 7:05 PM	“State Of The State”
January 27, 2010	7:00 PM – 8:44 PM	“State Of The Union”

## FIRST QUARTER WEATHER LABS

Created by KSL 5 Television, Weather Lab is a weather/science program. It is suited mainly to grade levels 4-6 and airs in conjunction with the 4<sup>th</sup> Grade weather curriculum in Utah schools.

During each session of Weather Lab, school children, their teachers, administrators and parents go to Discovery Gateway, a Salt Lake City-based children's museum, to meet with KSL Meteorologist Grant Weyman to learn about science, weather and broadcasting. Each group and experiment is taped for future on-air use.

The experiments air the week of the taping on KSL 5 News at Noon and attract a diverse group of students representing Wasatch Front schools in a wide geographic area. Schools participating come from the public, private, charter, web-based and home school sectors.

Weather Lab students are given the opportunity to share with viewers what they've learned about weather science, clouds, water cycles, precipitation and barometric pressure, just to name a few. Grant Weyman also plans and shares experiments and demonstrations with the school groups, while utilizing the museum's many educational backdrops.

Weather Lab has also created an Internet web site on [www.ksl.com](http://www.ksl.com). Within the site one can find information in such areas as "ask the Meteorologist," weather folklore, weather games, weather experiments, weather safety and quick weather facts. Also, students and parents can click on and see "streaming" video of previously aired segments.

Weather Lab meets the education and environment ascertainment.

January 26	Sunrise Elementary
February 2	Odyssey Charter
February 9	Foxboro Elementary
March 9	St. Olaf Catholic School
