WEATHER LAB

Created by KSL 5 TV, Weather Lab is a weather/science program. It is suited mainly to grade levels 3-6 and airs in conjunction with the 4th Grade weather curriculum in Utah schools.

During each session of Weather Lab, school children, their teachers, administrators and parents visit KSL Television to participate in Weather Lab with KSL Meteorologist Len Randolph. The program airs twice weekly on Eyewitness News at Noon and attracts a diverse group of students representing Wasatch Front schools in a wide geographic area. Schools participating come from the public, private and home school sectors.

Weather Lab students are given the opportunity to share with viewers what they've learned about weather science, clouds, water cycles, precipitation and barometric pressure, just to name a few.

Weather Lab has also created an Internet web site on www.ksl.com. Within the site one can find information in such areas as "ask the Meteorologist," weather folklore, weather games, weather experiments, weather safety and quick weather facts. Also, students and parents can click on and see "streaming" video of previously aired segments.

Weather Lab meets the Education and Environment ascertainments.

Weather Labs for 3rd Quarter

OUR TOWN

Our Town is a 2 ½ minute interview show, which is available for non-profit agencies in our community. The agencies use the show to announce fundraising events, promote educational programs and cultural events and ask for volunteers. Also covered are upcoming events that alert the public to issues relating to ascertainties listed for the quarter.

The show airs Monday through Friday, at 4:54 am, 9:55 am and 12:55 pm, with each segment running three times on the day it airs. The show also airs four times on Saturdays and one time on Sundays.
